Where's Johnson?" and went inside. Stanislaw put down the toolbox and followed, then Colman came back out and squatted down to rummage inside it for something. Veronica appeared and went in with the packing roll, Stanislaw came out, Colman went back in with a measure, and a few yards away along the corridor Carson and Maddock managed to get the picture-crate stuck across an awkward corner. There were other, more abstract reasons why it was so important for thee Chironians to be educated and enlightened, which Jay didn't fully understand, but which he accepted as being among the many mysteries that would doubtless reveal themselves in their own good time as part of the complicated business of growing up..bounces bong-bong-bong across the tiles. "For a few hours maybe."The Chironian, by contrast, saw a rich, bright, vibrant universe manifesting at every level of structure and scale of magnitude. The same irresistible force of self-ordering, self-organizing evolution that had built atoms from plasma, molecules from atoms, then life itself, and from there

produced the supreme phenomenon of mind and all that could be created by mind. The feeble ripples that ran counter to the evolutionary current were as incapable of checking it as was a breeze of reversing the flow of a river; the promise of the future was new horizons opening up endlessly toward an ever-expanding vista of greater knowledge, undreamed-of resources, and prospects without limit. Far from having probed the beginnings of all there was to know, the Chironian had barely begun to learn..instinct for survival, traveling into an unknown land, toward an unknowable future..The plasma emerged from this primary process with sufficient residual energy to provide high-quality heat for supplying a hydrogen-extraction plant, where seawater was "cracked" thermally to yield bases for a whole range of liquid synthetic fuels, a primary-metals extraction and processing sub complex, a chemical-manufacturing sub complex, and a desalination plant which was still not operational, but anticipated large-scale irrigation projects farther inland in years to come..he has the instincts of a survivor. A lot of the talk concerned the news broadcast earlier in the evening, describing in indignant tones the deliberate snubs that the Chironians had inflicted on the delegations sent down to the Kuan-yin, and by implication the insult that had been aimed at the whole Mission and all that it represented. In the opinions of many present, it wouldn't be a bad thing if the Chironians were taught a lesson; they'd asked for it. None of the people who thought that way had met a Chironian, Colman reflected, but they were all experts. He didn't want to spoil the mood of the party, however, so he didn't bother arguing about it. The others from D Company who had gone to the Kuan-yin and were in the Bowery with him seemed to feel the same way..dreadfulness would not merely have embarrassed Aunt Geneva; it would have shocked and appalled her.
